

LET'S START YOUR PRODUCT TO BE REALIZE.

UCR
1325A

ENGRAVING SOLUTION FOR OPTIMAL PERFORMANCE.

**INDUSTRIAL HEAVY DUTY
SOLUTION FOR FURNITURE FACTORY**

CNC ROUTER

UCR 1325A

UCR 1325A

Commonly utilized for engraving, creating membrane door designs, working with acrylic, crafting decorative panels, producing wave boards, constructing grills, and other similar applications.

CNC Router UCR 1325A

This cnc router, configured with high quality spare parts. It can be used to cut or engrave on plastic, acrylic, composite panel, wood, MDF alluminium, copper, etc. widely used in advertising and woodworking industries. with hard steel structure, is fit for hard wood working, like cutting and engraving on rosewood for furniture, indoor decoration. and with the vacuum holding way and dust collector, the machine is qualified or mass-producing of furniture. We use top quality components for the machines to keep the machine in thebest condition even after many years working.

Technical Specification

- ▶ The machine body is a robust, sturdy, precise, dependable, and long-lasting body.
- ▶ The imported high-precision ball screw gap guarantees smooth movement, ensuring the high precision of the machine tools.
- ▶ The long-lasting operation is guaranteed by the powerful cutting capability, low noise, and utilization of renowned domestic water-cooled brushless spindles.
- ▶ The high-performance motor is designed to guarantee the machine's high speed and precision.
- ▶ Choose the finest machine accessories meticulously to reduce the preferred failure rate.

Model	UCR 1325 A
X,Y working area	1300 x 2500 mm
Z working area	270 mm
Table size	1440 x 3040 mm
Lathe structure	Welded steel structure
X, Y Structure	Rack and pinion transmission
Z structure	Ball screw transmission
Max. Idling speed	35 m/min
Spindle	6 kw
Spindle Speed	0-24000 r/min
Working Mode	Stepper
Operating system	DSP with USB interface
Diameter of cutter	3.175 - 12.7 mm
Cooling mode	Air-cooling
Dust collect function	Yes
Work holding	By Clamp

Optional Attachments

Rotary attachments are available for producing wooden pillars using the same machine.
