UMB 42

The dual-row multi-boring machine offers precise and accurate operation. It ensures maximum precision in dowel boring with Umaboy's high-quality drilling spindles positioned at 32mm intervals, allowing the use of drills with a maximum diameter of 35mm. Perfectly aligned rows of holes and dowel bores are assured. The machine features a solid steel table, sturdy fences, pneumatic workpiece clamp, and ergonomic operating elements to guarantee top-notch quality.

Salient Features

- ▶ The imported original drill row, famous & superior original electric appliance.
- ▶ The machine tool elements choose the surprise steel materials.
- ▶ The healing treatment has been conducted with great intensity.
- ▶ Accurate and convenient operation is essential for optimal performance.

Technical Specification

Model	UMB 42
Distance between the bit	32 mm
Horizontal head	1
Verticle Head	1
The quantity of spindle	42
Maximum boring diameter	35 mm
Maximum panel thickness	60 mm
Maximum panel width	1450 mm
Minimum panel width	200 mm
Total power	3 kw

Machine Specification

Verticle Boring Head

- To meet the requirements, 21 drilling bits are positioned at a distance of 32 mm from each other.
- Optimal power and quickness for wood drilling in assembly work
- meticulously crafted to meet the highest standards and comply with all industry regulations.

Tilting Drilling Head

- It is possible to create precise holes on both the surface and the edge of the board.
- The drilling head has the ability to tilt and move up to 90 degrees.
- The outstanding execution with precise movements and focus on the specific surface was truly impressive.
